

CTPAT Statement of Support

Date: January 1, 2026

CTPAT stands for Customs Trade Partnership Against Terrorism. Implemented in November 2001, CTPAT is a voluntary joint government-business initiative to build cooperative relationships that strengthen overall supply chain and border security. U.S. Customs and Border Protection (CBP) requests that businesses ensure the integrity of their security practices and communicate their security guidelines to their business partners within the supply chain. CTPAT offers businesses an opportunity to play a major role in securing international trade and ensuring a safer supply chain for their employees, suppliers, and customers.

As a supply chain partner to importers and exporters of the USA, Carson Customs Brokers USA Inc. is a proud participant and supporter of the CTPAT program and initiatives. We are fully committed to developing, implementing, and maintaining a multi-layered security program that meets or exceeds the CTPAT Minimum Security Criteria (MSC).

Our corporate culture prioritizes supply chain integrity. We actively work to protect our logistics networks from criminal activities, including terrorism, drug trafficking, human smuggling, and the introduction of illegal contraband.

We mandate our employees to become aware of our security roles and responsibilities - both as a company and as individual staff members. All personnel must confirm their understanding and adherence to these protocols through our annual risk assessments and security training programs. Furthermore, as an advocate of CTPAT, we strongly encourage our business partners, including vendors, service providers, and clients, to learn about the program, engage with its standards, and implement CTPAT security criteria within their own operations.

Security is a shared responsibility across our organization. Carson Customs Brokers USA Inc. will continue to dedicate the executive oversight and organizational resources necessary to maintain a safe, secure, and compliant global supply chain.
